

Old Testament Puzzle

Determine the name of the book of the Bible for each clue listed below.

Then write the letters of that book in the 13 by 11 matrix using the following rules:

- (1) Each word makes one right-angle turn somewhere along its length.
But you must determine where each word makes this turn and in which direction.
- (2) As a guide, the starting direction (i.e., the direction of the word before its right angle turn) of each answer is indicated by the letter given after the clue number.
- (3) Words can go North, South, East, or West to start with.
For example, 1S begins on square 1 and heads South.
- (4) Each letter in the correctly completed grid appears in only one word.
- (5) Enter Song of Solomon without any spaces between the words.
- (6) No duplicate names are used. For example, there will be just one entry for 1 Kings and 2 Kings; similarly, CHRONICLES will be entered just once in spite of the fact that there are two books with that name. So, the thirty-nine books of the Old Testament will be represented by the thirty-six unique names.
