

## Outline of A.P. Calculus Semester 1 Exam

Day 1:

Part I **With** a Calculator  
Multiple Choice  
Free Response

Day 2:

Part II **Without** a Calculator  
Multiple Choice  
Free Response

---

**To do well on this exam, you should do the following:**

1. Study your notes – study methods used in proofs and problems.  
Learn definitions in your notes.
  2. Rework problems that I assigned for homework.
  3. Rework problems on tests and quizzes and Mini exams.
  4. Work all the problems on the review sheets.
  5. Study the list of Derivatives.
- 

Outline of Exam by Topics:

I. Chapter 1 - Functions

- A. Properties of functions --Definition, Domain, and Range
- B. Graphing Functions
- C. Parametric Equations
- D. Greatest Integer Function
- E. Inverse Trig Functions
- F. Logarithmic and Exponential Functions

II. Chapter 2 - Limits and Continuity

- A. Limits - Intuitive (and infinite geometric series)
- B. Limits - Definition
- C. Limits - Computations
- D. Continuity

### III. Chapter 3 - Differentiation

- A. Definition of Derivative, Graph of derivative
- B. Tangent and Normal Lines
- C. Derivative Formulas  
(Chain Rule, Trig., Tables, Product, Power, Sum, Quotient)
- D. Derivatives of trig functions
- E. Differentials
- F. Velocity, Acceleration
- G. Related Rates

### IV. Chapter 4 - Logarithmic and Exponential Functions

- A. Inverse Functions
- D. Implicit Differentiation
- E. Derivatives of logarithmic and exponential functions
- F. Derivatives of Inverse Trigonometric Functions
- G. L'Hopital's Rule

### V. Chapter 5 – Curve Sketching

- A. Increasing, Decreasing, Concavity
- B. Relative Extrema – Maxima, Minima
- C. Absolute Extrema
- D. Applied Maxima Minima Problems

### VI. Appendix A - Trigonometry

- A. Trig Functions
- B. Trig Identities
- C. Trig Equations

### VII. Appendix B -Solving Polynomial Equations

- A. Remainder Theorem

### VIII. Appendix D - Real Numbers, Intervals, and Inequalities

- A. Express repeating decimals as ratios of integers
- B. Interval Notation
- C. Solving inequalities

### IX. Appendix E - Absolute Value

### X. Appendix F - Coordinate Planes and Lines

- A. Slope of a line and Angle of inclination
- B. Equations of lines

### XI. Appendix G - Distance and Circles

- A. Distance
- B. Circles
