CRISS-CROSS-COUNTRY

Each clue in this puzzle is an outline of a different state in the United States (maybe even yours), not all drawn to the same scale. Write the name of each state into the grid, beginning at the number matching the clue. The name of one state has been shown to start you off.

Bonus puzzle: The letters in the shaded squares can be rearranged to spell the name of a state that does not appear in the rest of the puzzle. What is that state?
